

PHR4KT1L

TECHNICAL RIDER · Booking Reference

DJ EQUIPMENT

Comfortable with **CDJs** (any current Pioneer model) or an **all-in-one DJ controller** — happy to work with whatever the venue has available. USB playback only. If turntables, vinyl, or analog inputs are part of the setup, please flag it in advance.

Mixer: any current club-standard mixer (Pioneer DJM series or equivalent) is fine.

If a venue doesn't have CDJs or a club mixer available, I'm happy to bring my own all-in-one DJ controller as a backup — just let me know in advance so I can plan accordingly.

MONITORS / BOOTH

Standard booth monitor(s) — no special requirements.

HOUSE SYSTEM CONNECTION

Standard line-out from the DJ mixer to house system (RCA or XLR). Please confirm cable type and connection point with house engineer in advance.

SET-UP & ACCESS

15–30 minutes of booth access before set time for setup and sound check.

Water at the booth is appreciated, no other hospitality requirements.

For booking, scheduling, and contact — visit the press kit below.
